| Nota di bibliografia | Includes bibliography and indexes. |
| Nota di contenuto | List of Examples. List of Principal Results. List of Figures. 1. A Single Explanatory Variable. 2. Vector Explanatory Variables. 3. Extensions of the Single Relation Model. 4. Multivariate Models. Bibliography. Author Index. Subject Index. |
| Sommario/riassunto | Offers coverage of estimation for situations where the model variables are observed subject to measurement error. This book includes regression models with errors in the variables, latent variable models, and factor models. It discusses results from areas of application, including results for nonlinear models and for models with unequal variances. |
