Sommario/riassunto

Uncover profitable trading opportunities by exploiting the multiple time frames traded by different market participants. In virtually all traded markets there are traders working on short-term, medium-term, and long-term perspectives. Each class of trader has different keys for entering and exiting the market. By identifying those keys and understanding where these traders intersect, a trader can spot profitable trading opportunities. In *Time Compression in Trading*, author Jason Jankovsky explains the structure of the market through the prism of the time frames of different tr
