

1. Record Nr.	UNINA9910877701803321
Titolo	Post-disaster reconstruction of the built environment : rebuilding for resilience // edited by Dilanthi Amaratunga, Richard Haigh
Pubbl/distr/stampa	Chichester, West Sussex, U.K. ; ; Ames, Iowa, : Wiley-Blackwell, c2011
ISBN	1-283-17826-5 9786613178268 1-4443-4494-3 1-4443-4491-9
Descrizione fisica	1 online resource (337 p.)
Altri autori (Persone)	AmaratungaDilanthi HaighRichard
Disciplina	690/.24
Soggetti	Buildings - Repair and reconstruction - Standards Disasters - Social aspects Architectural design - Technological innovations Architecture and society
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction / Richard Haigh and Dilanthi Amaratunga -- Capacity development for post-disaster reconstruction of the built environment / Kanchana Ginige and Dilanthi Amaratunga -- Capacity of the construction industry in post-disaster reconstruction : post tsunami Sri Lanka / Krishanthi Seneviratne -- Resourcing for post-disaster reconstruction : a longitudinal case study following the earthquake in China -- Yan chang, Suzanne Wilkinson, Regan Potangaroa and Erica Seville -- Empowerment in disaster response and reconstruction : role of women / Nirooja Thurairajah -- Community-based post-disaster reconstruction : examples from Indonesia / Taufika Ophiyandri -- Stakeholder consultation in the reconstruction process / Nuwani Siriwardena and Richard Haigh -- Project management for post-disaster reconstruction / Udayangani Kulatunga -- Legislation for effective post-disaster reconstruction : case of New Zealand / James Olabode Rotimi, Suzanne Wilkinson and Dean Myburgh -- Post conflict reconstruction : challenges / Dilanthi Amaratunga and Krishanthi

Seneviratne -- Private construction sector engagement in post-disaster reconstruction / Richard Sutton and Richard Haigh -- Knowledge management practices and systems integration / Chaminda Pathirage -- Restoration of major infrastructure and rehabilitation of communities / Kaushal Keraminiyage -- Sustainable post-disaster waste management : construction and demolition waste / Gayani Karunasena -- Linking reconstruction to sustainable economic development / Roshani Palliyaguru and Dilanthi Amaratunga -- Disaster risk-reduction and its relationship with sustainable development / Kanchana Ginige -- Conclusions and close / Richard Haigh and Dilanthi Amaratunga.

Sommario/riassunto

Disasters threaten all parts of the world and they appear to be increasing in frequency, scale and intensity. Despite huge improvements in the emergency response, permanent reconstruction is often uncoordinated, inefficiently managed and slow to begin. International agencies are geared to an efficient response in terms of humanitarian relief, but they are not well versed in the requirements of long-term reconstruction, which is often constrained by lack of planning and poorly coordinated management. The construction industry is typically engaged in a range of critical activities after a disa
