Sommario/riassunto	Community Palliative Care examines the complex support and information needs of seriously ill patients and their families and will encompass not only the patient's journey, but that of the family during the illness trajectory and into the bereavement period. The text is divided into three sections- professionals, patients and carers. The first section discusses the roles and contributions made by other members of the primary health care team and examines the role of the nurse. Section two explores the psychosocial support needed by patients receiving palliative care, and looks a
