Autore	Newton Darrell M.
Titolo	Paving the Empire Road : BBC television and black Britons // by Darrell M. Newton
Pubbl/distr/stampa	Manchester : , : Manchester University Press, , 2019 ©2019
ISBN	1-5261-4361-5 1-78170-284-5 1-84779-460-2
Descrizione fisica	1 online resource (289 p.)
Disciplina	302.23450941 791.45089960729
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Copyright; Contents; Illustrations; Acknowledgements; Abbreviations; Introduction; 1. Radio, race, and the Television Service; 2. Television programming and social impact; 3. Voices of contention and BBC programming; 4. A Black eye; 5. Contemporary voices from within; Appendix; Selected bibliography; Index
Sommario/riassunto	Beginning in the 1930's and moving into the post millennium, Newton provides a historical analysis of policies invoked, and practices undertaken as the Service attempted to assist white Britons in understanding the impact of African-Caribbeans, and their assimilation into constructs of Britishness. Management soon approved talks and scientific studies as a means of examining racial tensions, as ITV challenged the discourses of British broadcasting. Soon, BBC2 began broadcasting; and more issues of race appeared on the screens, each reflecting sometimes comedic, somewhat dystopic, often problema

Note generali	Includes index.
Sommario/riassunto	FIDIC contracts are the most widely used engineering standard form contracts internationally but until 2017 the three main forms (the Red, Yellow and Silver Books) had not been amended or updated for nearly two decades, since the first editions were published in 1999. Written by a specialist lawyer who was member of the FIDIC Updates Task Group responsible for writing the new contracts, this book examines in detail the many substantial changes they have introduced. After providing an overview the contracts are examined clause by clause with the aim of showing how each compares and contrasts with the others and how the second editions compare and contrast with the first. The first chapter describes how the Red, Yellow and Silver Books evolved from earlier contract forms and the distinctive characteristics of each, before providing an overview of the updates, including new potential risks for

both Employer and Contractor, and then examining, in the second chapter, key general provisions such as the new rules on notices and limitation of liability. Chapter 3 examines the enhanced role of the Engineer in the Red and Yellow Books/Employer's Representative's function in the Silver including the new procedure for determinations as well as the Employer's obligations and contract administration. The Contractor's obligations are considered in chapter 4 while chapter 5 examines his responsibility for design in the Yellow and Silver Books. Chapters 6 to 14 deal respectively with plant, materials and workmanship and staff and labour; time-related provisions in the three contracts including extensions of time, and the Employer's right to suspend the works; testing on and after completion and the Employer's taking over of the works; defects after taking over, acceptance of the works and unfulfilled obligations; measurement (in the Red Book), the Contract Price and payment; the new variations regime and adjustments to the Price; termination and suspension; care of the works and indemnities and Exceptional Events (previously, Force Majeure). An important feature of the new contracts is their increased emphasis on clarity in the claims process and on dispute avoidance. These topics are examined in the final two chapters, 15 and 16, which deal respectively with the new claims and dispute resolution provisions of the 2017 forms. FIDIC contracts are the most widely used standard forms of contract for international engineering and construction projects; Provides a clear and comprehensive guide to the 2017 FIDIC Red, Yellow and Silver Books; Written by a senior specialist lawyer and member of the FIDIC 2017 Updates Task Group responsible for writing the new contracts; Accessible to those with little or no familiarity with FIDIC contracts. The 2017 FIDIC Contracts is an important guide for anyone engaged in international projects, including employers, contractors, engineers, lawyers, suppliers and project financiers/sponsors.
