

1. Record Nr.	UNISALENTO991001621759707536
Autore	Coutinho, Gago Almirante
Titolo	Segredos sobre a descoberta do Brasil
Pubbl/distr/stampa	Lisboa : Publicacoes Quipu, c2000
ISBN	972840820X (v.1) 9728408218(v.2)
Edizione	[1 ed.]
Descrizione fisica	v.[1-2]; 23 cm
Soggetti	Scoperte geografiche - Portogallo
Lingua di pubblicazione	Non definito
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Titolo sulla copertina: Descoberta do Brasil << Arquivo Rainer Daehnhardt >>
Nota di contenuto	[v.1] Reflexoes tecnicas [v.2] Versao nautica

2. Record Nr.	UNINA9910878045703321
Autore	Ahrens Hendrik Hermann Eckart
Titolo	The Ecological Modernization of the Chemical Industry : Predictors for Adoption of Innovations to Reach Carbon Neutrality in the Chemical Industry
Pubbl/distr/stampa	Wiesbaden : , : Springer Vieweg. in Springer Fachmedien Wiesbaden GmbH, , 2024 ©2024
ISBN	9783658453893 9783658453886
Edizione	[1st ed.]
Descrizione fisica	1 online resource (356 pages)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Acknowledgement -- Abstract -- Executive Summary -- Contents -- Abbreviations -- List of Figures -- List of Tables -- 1 Introduction -- 1.1 Carbon Neutrality -- 1.2 Climate Discourse -- 1.3 Global Emissions -- 1.4 Purpose of the Research -- 1.5 Structure of the Dissertation -- 2 Business Case Description -- 2.1 Industry Sectors -- 2.2 Economic Review -- 2.3 Political Environment -- 2.4 Greenhouse Gas Emissions -- 2.5 Emission Sources -- 2.5.1 Process Emissions -- 2.5.2 Carbon Dioxide -- 2.5.3 Methane -- 2.5.4 Nitrous Oxide -- 2.5.5 Fluorinated Gases -- 2.6 Mitigation Strategies -- 2.6.1 Efficiency Gains -- 2.6.2 Phasedown -- 2.6.3 Renewable Energy -- 2.6.4 Reuse and Recycling -- 2.6.5 Biomass Feedstock -- 2.6.6 Carbon Capture and Utilization -- 2.6.7 Carbon Offset Programs -- 2.7 Performance Indicators -- 2.7.1 GRI Reporting Standard -- 2.7.2 Default Values -- 2.8 Technological Uncertainties -- 3 Review of Determinants for Eco-innovation Adoption -- 3.1 Drivers -- 3.1.1 Innovation Economics -- 3.1.2 Market Pull -- 3.1.3 Technology Push -- 3.1.4 Environmental Policies -- 3.1.5 Company-specific Factors -- 3.1.6 Customer Expectations -- 3.1.7 Efficiency Gains -- 3.1.8 Innovation Capabilities -- 3.1.9 CSR Strategy -- 3.1.10 Management Advocacy -- 3.1.11 Cooperation -- 3.1.12 Standardization -- 3.1.13

Nota di contenuto	-- Part I Rule of Law and Technology -- Guarantees of the rule of law in Romania in the digital age, cybersecurity and the processing of personal data -- Artificial intelligence – a threat to the rule of law? The role of constitutional courts in shaping emerging technologies -- Rule of law, constitutional jurisdiction, and technology in Peru -- Administration and Access to Justice through Technology: The Experience of the Constitutional Court of Kosovo -- Enhancing transparency of the constitutional courts – The role of the new technologies -- The Impact of the Digital Age on Fundamental Rights -- Risks of Biotechnology and the Rule of Law -- Fake News and Control Over Freedom of Speech in the Digital Age -- Freedom of

expression in digital platforms - How the Albanian high courts assess the necessity in a democratic society? -- Language Discrimination and Constitutional Safeguards -- EU Guideline on AI Trustworthy and 'not intuitive' application of the principle of Fairness -- Part II Rule of Law and Climate Environment Energy -- Sustainability – from a leadership perspective -- Are Polish Courts Tough Enough for the Protection of Human Rights Related to Climate Changes? -- Ombudsman for future generations in the Polish law de lege ferenda proposal for environmental and climate protection -- Climate change and the rights of future generations: the contribution of courts -- Constitutional protection for future generations. The French perspective -- Transboundary Ambitions: Exploring the Theory of Extraterritoriality in EU Climate Law and Policy in Southeast Europe -- The Green Deal and the European Climate Laws, especially CBAM -- The Green Deal of the EU in the Light of the Agricultural Sector -- Climate change adaptation Adjusting to the climate change, and preventing an economic and social crisis The Greek paradigm particularly in the context of investment legislation.

Sommario/riassunto

This book addresses the rule of law in connection with technology and environment. The rule of law represents the heart of constitutionalism. Public power can only be legitimately exercised if it is based on and complies with the law. The Constitution and its fundamental values are the ultimate sources of orientation for the rule of law. Domestic rule of law is complemented by its external dimension, the duty to respect international law and, for EU member states, supranational law. For the World Jurist Association, the realization of the rule of law has been the central concern since its founding more than 60 years ago. Its biennial world congresses, which bring together leading figures from politics, the judiciary and academia under the presidency of Javier Cremades, focus on the universal importance of the rule of law, which experts from numerous countries discuss on the basis of current problem areas. At the 2023 World Law Congress in New York central topics were technology as well as climate protection, environment and energy.
