Sommario/riassunto	This book contains the conference proceedings from the 2023 Asia-Singapore Conference on Sports Science (ACSS). ACSS is an international conference that assists researchers in the Asia-Pacific region in disseminating and communicating their research findings on the latest topics in sports science. This book provides students and scholars with a compilation of the latest research in the field of Sport Science presented at the conference. The book covers a wide range of Sport Science topics, including physical and biological sciences, social science and education.
