Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This title presents a history of the self-report crime survey as a method of criminological inquiry, describing how, during the 1930s and 1940s, a handful of US and European criminologists discovered the method, thus providing researchers with a powerful analytical tool and changing the way crime itself was seen.
