| Note generali | "The European Journal of Cancer - Skin Cancer is a peer-reviewed, Open Access journal that publishes on all aspects of skin cancer."
"We are especially interested in receiving manuscripts centred on the fields of melanoma and non-melanoma skin cancer (NMSC), including basal cell carcinomas (BCCs), squamous cell carcinomas (SCCs), as well as rarer forms of NMSC such as cutaneous lymphoma, Merkel cell carcinoma or cutaneous sarcoma. The journal encourages the submission of original research articles and review articles, as well as |

Current Perspectives focussed on screening, prevention, early detection including dermatoscopy, diagnosis, diagnostic procedures, pathology and treatment of all kind of skin malignancies."
