Livello bibliografico	Monografia
Sommario/riassunto	For more than a decade The Healing Art of Writing conference has sought to strengthen compassionate understanding between healthcare providers and those who seek a state of well-being beyond the reach of surgery or pharmacology. Together, the participants share the belief that being cured of disease is not the same thing as being healed, and that a practice of expressive writing promotes both spiritual and physical healing. The writings presented at the 2013 conference, collected here in Tell Me Again, are a powerful testament to that belief. Within these pages you will hear, again and again, words of truth, words that uplift, words that heal.
