Sommario/riassunto	"Kosakowsky's book, produced in the clear, easy-to-read and well-designed format . . . is a substantive contribution to Maya ceramic studies. She details the significant changes in the ceramic sequence

and in so doing provides the kind of information that enables other ceramicists, and other Mayanists, to compare the Cuello phenomenon with developments elsewhere. Studies such as these are the building blocks of any larger-scale structural understanding of Maya cultural change."-- Journal of Latin American Studies
