Sommario/riassunto	3D Data Creation to Curation: Community Standards for 3D Data Preservation collects the efforts of the Community Standards for 3D Data Preservation (CS3DP) initiative--a large practicing community of librarians, researchers, engineers, and designers--to move toward establishment of shared guidelines, practices, and standards. Using a collaborative approach for standards development that promotes individual investment and broad adoption, this group has produced a work that captures the shared preservation needs of the whole community.
