

1. Record Nr.	UNINA9910887837203321
Titolo	JoVE science education Microbiology
Pubbl/distr/stampa	[Cambridge, MA] : , : [MyJoVE Corporation], , 2019-
ISSN	2689-3657
Descrizione fisica	1 online resource (streaming video files)
Disciplina	579
Lingua di pubblicazione	Inglese
Formato	Videoregistrazione
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed
Sommario/riassunto	"This collection demonstrates the key tools of microbiological investigation, including proper sterile technique and plating, how to use selective media and enrich samples, and culturing methods for mixed or pure samples. Additionally, it looks at common methods for identifying microbial isolates, as well as procedures for the genetic manipulation of bacteria."
