

1. Record Nr.	UNINA9910887857103321
Titolo	Biology. Mutations
Pubbl/distr/stampa	Bozeman, MT : , : Bozeman Science, , 2015
Descrizione fisica	1 online resource (8 minutes)
Collana	Academic Video Online
Soggetti	Biology - Study and teaching Genetics Mutation (Biology) Instructional films.
Lingua di pubblicazione	Inglese
Formato	Videoregistrazione
Livello bibliografico	Monografia
Note generali	Title from resource description page (viewed August 5, 2020).
Sommario/riassunto	Paul Andersen describes the major mutations found in the living world. He starts with an analogy comparing the information in DNA with the information in a recipe. Changes in the DNA can result in changes to the protein, like changes in the recipe can result in changes in the food. He describes the three major point mutations; substitutions, deletions and insertions. He also describes several chromosomal mutations.
