

1. Record Nr.	UNINA9910887913203321
Autore	Rossi Monica
Titolo	Teorie e sperimentalismo progettuale per la ricerca in tecnologia dell'architettura / Theories and experimental design for research in architectural technology
Pubbl/distr/stampa	Florence, : Firenze University Press, 2013
Descrizione fisica	1 electronic resource (482 p.)
Collana	Scuole di dottorato
Soggetti	Architecture Technology: general issues Other technologies & applied sciences
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The volume, which gathers reflections on the theme of the city intended as a field of experimentation, provides an updated overview on doctoral (PhD) and post-doctoral research in Architectural Technology, and offers wide-ranging theoretical insights as well as a broad range of specialized applications. The environmental approach, which welcomes suggestions from the surrounding areas, enhancing their "material culture", shows the common trait on which many of the research topics presented here are based.
