Sommario/riassunto	<p>This book, edited by Emine Gülbin Gökçay and Gonca Keskindemirci, provides a comprehensive guide on the follow-up and community care of children with chronic diseases. It addresses a wide range of conditions, including chronic physical, mental, and genetic disorders, as well as specific diseases like asthma, diabetes, and epilepsy. The book emphasizes multidisciplinary approaches to care, psychosocial support for families, and the integration of children into society as confident individuals. It also highlights the importance of vaccination, oral health, and genetic counseling for children with chronic conditions. Written by experts in pediatric health, the book is intended for healthcare professionals, researchers, and policymakers working in the field of child health and social pediatrics. Its purpose is to improve the quality of life and societal participation of children with chronic illnesses.</p>
