Sommario/riassunto

This comprehensive study of women anti-slavery campaigners fills a serious gap in abolitionist history. Covering all stages of the campaign, *Women Against Slavery* uses hitherto neglected sources to build up a vivid picture of the lives, words and actions of the women who were involved, and their distinctive contribution to the abolitionist movement. It looks at the way women's participation influenced the organisation, activities, policy and ideology of the campaign, and analyses the impact of female activism on women's own attitudes to their social roles, and their participation in p

Sommario/riassunto

The six-volume proceedings set LNAI 15919, 15920, 15921, 15922, 15923 and 15924 constitutes the refereed proceedings of the 18th International Conference on Knowledge Science, Engineering and Management, KSEM 2025, held in Macao, China during August 4–7, 2025. The 106 papers and 66 short papers are included in these

proceedings were carefully reviewed and selected from 354 submissions. They focus on all aspects of the exchange of research in artificial intelligence, data science, knowledge engineering, AI safety, large language models, and related frontier areas.
