Note generali	Refereed/Peer-reviewed "OAR seeks to challenge the bound temporality of the standard academic publication, and to stimulate a culture of timely response. Themed issues of the online journal appear twice-yearly ... The launch of an issue is its publishing event, but the issue does not assume its final form on that date. Instead, the issue continues to expand through the responses that are added to the site."--About page, journal web site, viewed June 12, 2020
