Emulsion, dispersion and suspension polymerization preparation of polymer colloids and their stabilization -- 11. Pigment dispersion and the role of surfactants in wetting -- 12. Breaking of aggregates and agglomerates (deagglomeration) and size reduction -- 13. Rheology of paint formulations -- Part III: Colloid and interface science in food colloids -- 14. Interaction between food-grade surfactants and water -- 15. Proteins as emulsifiers and their interaction with polysaccharides -- 16. Surfactant association structures, microemulsions and emulsions in food -- 17. Rheology of food emulsions -- 18. Food rheology and mouth feel -- Index |
| Sommario/riassunto | Volume 4 of the Handbook of Colloid and Interface Science is a survey into the applications of colloids in a variety of fields, based on theories presented in Volumes 1 and 2. The Handbook provides a complete understanding of how colloids and interfaces can be applied in |

materials science, chemical engineering, and colloidal science. It is ideally suited as reference work for research scientists, universities, and industries.

Sommario/riassunto

Drawing on a wide range of documentary and oral sources, including interviews with refugees, this book explores the responses in Manchester to those threatened by the rise of Fascism in Europe. By exploring the responses of particular segments of Manchester society, from Jewish communal organisations and the Zionist movement to the Christian churches, pacifist organisations and private charities, it offers a critical analysis of the factors which facilitated and limited the work of rescue and their effect on the lives of the seven or eight thousand refugees - Spanish, Italian, German, Austrian and
