Nota di contenuto	""Improving Outcomes in Chronic Heart Failure: Specialist nurse intervention from research to practice""; ""Contents""; ""Contributors""; ""Foreword""; ""Preface""; ""Section 1: Background""; ""1 Increased health care utilisation and costs: heart failure in the 21st century""; ""2 State of the art treatment for chronic heart failure""; ""3 Specialist nurse intervention in chronic heart failure: the evidence to date""; ""Section 2: The Glasgow experience""; ""4 Glasgow Heart Failure Liaison Service: a model for future services"" ""5 Establishing national heart failure services: can we afford not to?""; Section 3: From theory to practice""; ""6 A blueprint for identifying and managing patients within a heart failure service""; ""7 Assessing the

patient with heart failure"; ""8 Optimising the day to day management of patients with chronic heart failure"; ""9 Pharmacological treatment for chronic heart failure: a specialist nurse perspective""; ""Section 4: The future""; ""10 New frontiers in specialist nurse management of heart failure""; ""Appendices: some practical advice""
""Appendix 1: Profile of the specialist heart failure nurse""""Appendix 2: Case studies in managing chronic heart failure""; ""Appendix 3: Supporting the caregiver in heart failure""; ""Index""

Sommario/riassunto

Heart failure is a condition that often results in chronic tiredness and shortness of breath. It also requires complex nursing and medical treatment, especially after a hospital admission, which is all too frequent for persons with heart failure. This book describes and discusses the latest research concerning the benefits of having specially trained nurses manage the care of patients with heart failure after they have been discharged from hospital to their own home. Leading nurses and doctors from around the world discuss their experiences with this type of innovative and effective care progra

Nota di contenuto	Cybersecurity Threats and Countermeasures for IoT Devices -- Relationship between Website Atmospherics and Online Consumer Behavior -- MIMO and Chaotic Communication: Systematic Literature Review -- Crop-recommendation in Spatial Clusters Using Meta-heuristics and Machine Learning Techniques -- Black Gram Leaf Disease Detection Model using Combination of Hybrid-CNN Network and Transformer-Based Classification Model -- Multimodal Posture Monitoring and Eye Health Surveillance -- Efficient Feature Selection for IoT Security: A Comparative Analysis of Swarm Optimization Algorithms in Attack Detection -- Analysis of Feature Extraction Technique LBP and Classification Model SVM for CECT images -- ADHD Scout: Mobile Application for Home-Based Screening to Facilitate Early Detection of ADHD in Children -- Enhancing Solutions by Implementing Nash Equilibrium Strategies Using Python -- Target Specific Stance Detection from Social Media with Multilayer Perceptron -- Web Based Application

For Medicinal Plant Identification Using Transfer Learning Approach -- Navigating Challenges in India's Milk Industry: An In-Depth Review on Cattle Healthcare, Technology, and Market Dynamics.

Sommario/riassunto

This book includes high-quality research papers presented at the Seventh International Conference on Innovative Computing and Communication (ICICC 2024), which is held at the Shaheed Sukhdev College of Business Studies, University of Delhi, Delhi, India, on 16–17 February 2024. Introducing the innovative works of scientists, professors, research scholars, students and industrial experts in the field of computing and commun promotes the transformation of fundamental research into institutional and industrialized research and the conversion of applied exploration into real-time applications.
