Note generali	"Projecto de Conservación de Aguas y Tierras ProCAT, Colombia / Internacional." "Integrates the studies produced by institutions, universities, research centers and NGOs related with the conservation and sustainable management of species and Latin American ecosystems. Also, identifies the state of knowledge on conservation topics of the region, and to integrate methodologies and results, all with the ultimate aim of making research more comprehensive with higher levels of impact and with more implementation possibilities for the conservation of the natural systems of the region."
