Sommario/riassunto	This is an open access book. Based on the analysis of China's basic national conditions and development trends, this book begins with a general introduction to the study of "modernization with Chinese characteristics," and then discusses the comprehensive construction of a prosperous society in all respects, unprecedented changes, the new national system, green modernization, and technological modernization. In addition, there will be a presentation of in-depth research on topics such as leapfrog development of human capital market, the new stage of socialism, common prosperity in 2035 and a summary of the basic characteristics and great significance of

modernization of a Chinese-style economy, technology, and education. Through historical comparison, this work will show the development, stages and future prospects of modernization with Chinese characteristics -- focusing on international comparison, especially a quantitative comparison with Western countries. This will further highlight the fast-paced effect of modernization with Chinese characteristics, and place emphasis on the uniqueness and innovativeness of modernization with Chinese characteristics.
