### Sommario/riassunto

This book provides evidence for coaching from psychology perspectives, aiming to inform academics, researchers and students of the efficacy of positive psychology coaching practice for both individuals and organizations. It integrates three areas of research, providing a multifaceted analysis of coaching from traditional psychology, positive psychology, and coaching research findings. Finally, it introduces a comprehensive new model of coaching (COACH) based on the psychological and educational foundations of coaching, explaining its effectiveness and adaptability across settings and individuals.
