

1. Record Nr.	UNINA9910901888903321
Autore	Downer John (John R.)
Titolo	Rational accidents : reckoning with catastrophic technologies / / John Downer
Pubbl/distr/stampa	Cambridge, Massachusetts : , : The MIT Press, , [2023]
ISBN	9780262377010 0262377012 9780262377027 0262377020
Descrizione fisica	1 online resource
Collana	Inside technology
Disciplina	620/.00452
Soggetti	Reliability (Engineering) Aircraft accidents - Prevention Risk assessment Industrial safety
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"There are limits to what engineers can know, and this means that not every technological failure can be anticipated or avoided. The book explores this observation in the context of technologies that cannot be allowed to fail, e.g., jetliners"--
