Titolo	Wprowadzenie do komputerowej analizy danych jakościowych. Przykłady bezpłatnego oprogramowania CAQDAS / Jakub Niedbalski
Pubbl/distr/stampa	ód [Poland], : Wydawnictwo Uniwersytetu ódzkiego, 2018
ISBN	83-8142-041-5
Descrizione fisica	1 online resource (1 p. 216)
Soggetti	Social sciences Sociology Methodology and research technology Social Informatics
Lingua di pubblicazione	Polacco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The book describes CAQDA software that support qualitative data analysis. These are free tools, commonly available, which offer relatively broad possibilities and require no special hardware or knowledge regarding standard computer programs (such as e.g. MS Office). The presented programs allow to work with texts and analyze the audiovisual materials. The publication also includes some practical tips on selection of software that can be followed while implementing research projects. This is why the book should find readers not only among students, doctoral students and researchers interested in qualitative data analysis aided with specialist computer software, but also among all of those who look for such tools in their work.
