

1. Record Nr.	UNISA996205394003316
Titolo	Cahier de linguistique
Pubbl/distr/stampa	Montréal, : Presses de l'Université du Québec
ISSN	1920-1346
Descrizione fisica	1 online resource
Disciplina	410/.5
Soggetti	Linguistics French language Philosophie française linguistique Periodicals. [Périodique]
Lingua di pubblicazione	Francese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Some volumes have also a distinctive title.

2. Record Nr.	UNINA9910908375003321
Autore	Toader Despina-Manuela
Titolo	Echocardiographic evaluation of patients with implanted devices // Despina-Manuela Toader
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , [2024]
ISBN	9783031640797 9783031640780
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (vi, 163 pages) : illustrations (chiefly color)
Disciplina	616.12
Soggetti	Electrocardiography - Methodology Electrocardiography Cardiovascular instruments, Implanted Electrocardiography - methods Pacemaker, Artificial Cardiac Resynchronization Therapy Devices
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	General description of types and modes of pacing -- Left ventricle systolic function evaluation in patients with implanted devices -- Left ventricle diastolic function evaluation in patients with implanted devices -- Lead position evaluation in patients with implanted devices -- Right ventricle function evaluation in patients with implanted devices -- Mitral regurgitation echocardiographic evaluation in patients with implanted devices -- Tricuspid valve evaluation in patients with implanted devices -- Echocardiographic follow-up the patients with implanted devices -- Echocardiography-guided optimization of atrioventricular and interventricular delay in patients with implanted devices -- Echocardiographic evaluation of complications after intracardiac devices implantation.
Sommario/riassunto	This book describes the always-challenging echocardiographic evaluation of patients with a pacemaker, defibrillator or resynchronization device. With no defined set of guidelines to orient clinicians about the appropriate evaluation of patients with implanted devices, this book describes the management and evaluation of

patients with often highly complex clinical profiles. Echocardiographic Evaluation of Patients with Implanted Devices reviews chamber quantification, systolic and diastolic function evaluation, analysis of wall motion abnormalities, description and review of mitral apparatus and mitral regurgitation, tricuspid apparatus and tricuspid regurgitation, and the evaluation of echocardiographic parameters after cardiac resynchronization therapy. Also included are extensive sections on the complications of the process and how to identify these at the earliest stage. It is a critical resource for cardiologists, sonographers and interventional cardiologists, and all involved in the management of these patients.
