Edizione	[2nd ed. 2024.]
Descrizione fisica	1 online resource (564 pages)
Altri autori (Persone)	SharpAbigail K
Disciplina	616.07
Soggetti	Pathology Forensic sciences Forensic Science Autòpsia Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	General Considerations and Safety -- External Examination -- Evisceration -- Thorax: Heart, Lungs, Mediastinum, and Pleura -- Gastrointestinal and Hepatobiliary System -- Genitourinary and Breast Tissues, Including Pregnancy -- Lymphoreticular Tissues: Lymph Node, Spleen and Thymus, Bone and Marrow -- Endocrine Glands: Thyroid, Parathyroid, Adrenal, and Pituitary -- The Central Nervous System, with Eye and Ear -- Standard and Special Tests -- Devices: Foreign Items Encountered During the Autopsy -- The Forensic Autopsy -- The Radiological Autopsy -- Toxicology -- Appendix.
Sommario/riassunto	This new second edition of the successful 2016 Atlas of Adult Autopsy Practice is fully updated and refreshed with novel illustrations, and data refinements. It leads with pictures, focused text, and commentary on the autopsy itself as a specialist pathology subject. The content expands the coverage of specialist techniques with chapters covering post-mortem imaging, toxicology, neuropathology and forensic pathology from practising specialists. The addition of an original chapter addressing post-mortem histology adeptly contributes to the autopsy training literature. The book – a mainstay for the numerous

practitioners working in this field, provides a standard for autopsy practice in the UK, Europe and beyond.
