Sommario/riassunto	<p>This two-volume set presents the conference papers from the 2023 iteration of the International Conference on Economics, Development and Sustainability (EDESUS 2023), organized by the VNU University of Economics and Business, Vietnam National University, Hanoi. The collection addresses global changes and sustainable development in Vietnam and other emerging market economies in Asia, and covers wider topics such as economics and business (e.g. economic theory, national and international income distribution, macroeconomic policies, sectors of economy, productivity developments, financial market, business governance, bank financing), development and sustainability (e.g. developing process, development policy, public policy, sustainable growth, sustainability tools, sustainable livelihood, sustainable tourism, green growth), and resources and global change (e.g. human resources, natural resources, climate change, globalization, global challenges). The books are of interest to professors, researchers, lecturers, and students in economics and geography, consultants, and decision makers interested in global changes and sustainable development. Volume 2 focuses on global changes and sustainable development in Vietnam and other emerging market economies in Asia. This covers topics such as sustainability (e.g. sustainable growth, sustainability tools, sustainable livelihood, sustainable tourism), and change in resources globally (e.g. human resources, natural resources, climate change, globalization, global challenges).</p>
