

1. Record Nr.	UNINA9910913791803321
Autore	Akama Seiki
Titolo	Artificial Life : How to Create a Life Computationally
Pubbl/distr/stampa	Cham : , : Springer, , 2025 ©2024
ISBN	9783031744228 3031744225
Edizione	[1st ed.]
Descrizione fisica	1 online resource (147 pages)
Collana	Intelligent Systems Reference Library ; ; v.262
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book provides some resources of Artificial Life. Artificial Life (ALife or A-Life) is the research area which simulates a life computationally. It involves several approaches to living systems in artificial manners. It was recognized as a scientific field in the 1980's.
