Nota di contenuto	Front matter -- Contents -- Foreword / Chin Tong, Liew -- 1. Introduction - Malaysia's Future Is Redeemed -- Before Pakatan Harapan -- 2. After All These Years, Malaysia Is Still Held Hostage -- 3. Beyond the Nationalism Trap -- 4. Federating Malaysia - A Continuous and Troubled Process -- 5. Funeral for a True Son of Penang -- 6. Let's Work Out What Malaysia Is Good For -- 7. The Unity Fetish -- 8. When the National Narrative Loses the Script -- 9. Let's Be Cosmopolitan and Leave Multi-ethnicity Behind -- 10. Noses Don't Grow Back -- 11. Mahathir's Bersatu is Best Understood as an NGO -- Before 9 MAY 2018 -- 12. Racialising the Un-racialisable: What is the Red Shirt Rally All About? -- 13. One Country's Merdeka Is Another's Damage Control -- 14. Malaysia - Where Politics Must Be Ethnically Inclusive and Exclusive at the Same Time -- 15. Is Malaysia at a Crossroads or in a Quagmire? -- 16. Unity Without Solidarity Sows Disunity -- 17. UMNO and Looking Back at History -- 18. Sarawak Forces Federal Opposition to Do Deep Soul-searching. But Can It? -- 19. By-elections Reveal New Malay Politics -- 20. Interview with Mahathir Mohamad: 'People Must Be Able to Hold Their Heads Up.' -- 21. Malaysia Has to Start Re-examining Its Histories -- 22. Waves from US Probe into 1MDB May Turn into

Tsunami -- 23. Seeking a New Formula to Unite Malaysia's Diversity -- 24. Time for Anwar to Accept Mahathir's Olive Branch -- 25. Najib, Mahathir and the Timing of Malaysia's Polls -- 26. Excessive Governance is Not Good Governance -- 27. Why Malaysia's Opposition Will Take to the Streets Again -- 28. Merdeka is About the Individual, Too -- 29. A Battle Between Malay leaders Over Malaysia's Future -- 30. The Primacy of Political Economy in Asia -- With Mahathir at the Helm -- 31. One Thing is Certain-There Will Be More Amendments to the Constitution -- 32. The More Things Change, the More Things May Actually Change -- 33. Did Merdeka Liberate or Create Malaya? -- 34. Interview with Nurul Izzah Anwar: Rebuilding a Nation Long Divided -- 35. The Diminishing of Humans Through Identity Politics -- 36. The Art of Dismantling Cultural Pluralism -- 37. No Need to Let Bigots Dictate Policy -- 38. What the Penang Floods Say About Malaysian Politics (and It's Not Just About Climate Change) -- 39. This is the Moment of Truth for Malaysia's Race-based Politics -- 40. We are Equal Only Through Our Vote -- 41 Why the Opposition Has a Shot at Toppling the Barisan Nasional with Mahathir at the Helm -- 42. Spiraling Back Towards Reformasi -- 43. Individual Freedom Is a Matter of National Survival -- 44. Why Meet the Twenty-first Century with Twentieth Century Mindsets? -- 45. A Final Quarrel Between a Repentant Grandfather and Old fashioned Self-absorbed Parents -- 46. Outraged Enough to Go Vote or Cynical Enough to Stay Home? -- Beyond 9 MAY 2018 -- 47. The Bewildering Game of Malaysian Politics, the Rot Within the Barisan Nasional -- 48. A Revolution in Malaysia? Not so Fast... -- 49. Mahathir: Renaissance Man -- 50. Malaysia's Reformasi Movement Lives Up to Its Name -- 51. In Lieu of Race and Religion... -- 52. It All Seems So Simple Now... -- 53. Catharsis - The Rebirth of Malaysia Finally Begins -- 54. A Malaysian Spring for Intelligentsia? -- 55. The Layers of Historical Significance of GE14 -- About the Author

---

## Sommario/riassunto

Malaysia pulled itself back from the brink on 9 May 2018. That day the majority of its voting population decided to topple the Barisan Nasional government that had been in power for over 60 years and that had come to be seen as corrupt beyond redemption, and incompetent to boot. Lined up against the unpopular administration of Najib Razak was a coalition led by former strongman Tun Dr Mahathir Mohamad, who at the age of 92 had decided to return to Malaysian politics to stop the rot which many believed had begun during his earlier period in power, in 1981-2003. As the oldest prime minister in world history, he is now setting about creating structure that he believes will lead to a Malaysia that will achieve the Vision 2020 that he first propounded in 1991. This vision dovetails with the ideals of the highly influential Reformasi Movement which was ignited by the sacking of his deputy, Anwar Ibrahim, in 1998. This compilation of insightful analyses is Ooi Kee Beng's seventh, and discusses key events from the last five years leading up to 9 May 2018 and beyond. These seven books together cover the strange period we may come to know as the Inter-Mahathir Era, and the present volume discusses some of the challenges facing the new government, and the Malaysian population in general, now that the Barisan Nasional has imploded.

Nota di contenuto	Part I. Definitions, Physiopathology, Vascular and Imaging Investigations in Skin Necrosis -- 1. Introduction to Vascular and Imaging Investigations in Skin Necrosis -- 2. Dry Necrosis, Wet Necrosis: When to Debride, When Not to Debride and Practical Debridement -- 3. Ischemia/Reperfusion: A Potential Cause for Tissue Necrosis -- 4. Imaging, Vascular Assessment: Extension in Depth and Vascular Anomalies -- 5. Imaging of Hypodermal Fat Necrosis -- 6. Skin Necrosis and the Need for Vascular Assessments -- 7. Arterial and Mixed Leg Ulcer -- Part II. Different Clinical Context of Skin Necrosis Physical Injuries -- 8. Introduction to Physical Injuries in Skin Necrosis -- 9. Skin Mechanobiology: From basic science to clinical applications -- 10. Necrotic Burns -- 11. Electrical Burns -- 12. Gunshot Wounds -- 13. Frostbite -- 14. How to Manage Radiation Injuries -- 15. Excessive

internal pressure (dissecting haematoma, evisceration, etc.) -- 16. Telemedicine in Skin Necrosis -- Part III. Skin Necrosis of Toxic Origin -- 17. Introduction to skin necrosis of toxic origin -- 18. Resuscitation Foot Necrosis: A New Entity for a Complex Management -- 19. Skin Necrosis and Ulcers Induced by Medications -- 20. Toxic Syndromes -- 21. Skin Necrosis due to Snakebites -- 22. Skin Necrosis in Jelly fish, Stone fish -- 23. Skin Necrosis from Coma Blister (physiopath. approach) -- Part IV. Skin Necrosis of Medical Origin -- 24. Introduction to Skin Necrosis of Medical Origin -- 25. Rheumatoid and Systemic Collagenosis Vasculitis -- 26. Giant Cell Arteritis -- 27. Hidradenitis Suppurativa -- 28. Martorell Hypertensive Ischemic Ulcer -- 29. Vasculitis -- 30. Necrobiosis Lipoidica -- 31. Purpura Fulminans -- 32. Protein C and Protein S Deficiencies -- 33. Renal Insufficiency and Necrosis -- 34. Calciphylaxis -- 35. Livedo(id) Vasculitis -- 36. Pyoderma Gangrenosum -- 37. Cryoglobulinemia -- 38. Necrosis of the Upper Extremities -- 39. Factitious Disorders (Pathomimia) and Necrosis -- Part V. Skin Necrosis of Infectious Origin -- 40. Introduction to Necrosis and Infection -- 41. *Fusarium solani* -- 42. Fournier Gangrene -- 43. Necrotizing Fasciitis -- Part VI. Surgical Context of Skin Necrosis -- 44. Introduction to Skin Necrosis in a surgical context -- 45. Skin Necrosis Over Osteosynthetic Material -- 46. Necrotic Complications After Skin Grafts -- 47. Arterial Leg Ulcers -- 48. Prevention of skin necrosis in cosmetic surgery -- 49. Flap necrosis prevention using leeches -- 50. Revascularisation techniques to prevent limb amputation presenting distal necrosis -- 51. Skin reconstruction using dermal substitute after skin necrosis -- 52. Skin Necrosis of Diabetic Foot and Its Management -- 53. Skin Necrosis of Diabetic Foot and Its Microsurgical Management -- 54. Exposed Necrotic Tendons -- 55. Dissecting Haematomas in Patients Submitted to Anticoagulation -- 56. Management of the Patient After Flap Failure -- Part VII. Techniques Applicable to Skin Necrosis -- 57. Introduction to Techniques Applicable to Skin Necrosis -- 58. Dressings for Necrosed Skin -- 59. Surgical Debridement -- 60. Stabilisation of Necrotic Tissue Using Cerium Nitrate Silver Sulfadiazine -- 61. Honey Debridement -- 62. Recent Technologies in Necrosis Surgical Debridement -- 63. Regulations for Conservative Sharp Debridement for Nurse in Europe -- 64. Regulations for Conservative Sharp Debridement for Nurses in the USA -- Part VIII. Skin Necrosis in Children -- 65. Introduction to Skin Necrosis Treatment in Young Age -- 66. Skin Necrosis in Children: Physical and Infectious Causes -- 67. Neonatal Pressure Ulcer -- 68. Skin Necrosis in Children: Genodermatosis -- 69. Skin Necrosis in Children: Vascular Causes and Angioma -- Part IX. Skin Necrosis in Elderly patients 70. Introduction to Skin Necrosis Treatment in Elderly Patients -- 71. Pressure Necrosis in Geriatric Patients -- 72. Deep Dissecting Hematoma : a frequent cause of necrosis in elderly patient -- Part X. Education on Debridement -- 73. Introduction to Education on Debridement -- 74. Non-specialised nurses and debridement -- 75. how to become an expert in debridement? Nurse perspective -- 76. how to become an expert in debridement? Physician perspective -- 77. Regulations for conservative sharp debridement for nurses in Europe -- 78. Regulations for Conservative Debridement for Nurses in North America -- 79. Distance Skin Necrosis Management.

## Sommario/riassunto

This successful book, now Open Access in its second edition, was the first to discuss skin necrosis as a symptom related to a broad range of pathologies. In recent years, wound care has gained increasing recognition as a distinct medical specialty. An understanding of the complex mechanisms involved in wound healing facilitates efficient

assessment and treatment of patients with wounds, and skin necrosis can be considered the starting point in the entire healing process. Richly illustrated, this volume primarily provides therapeutic strategies and treatment algorithms for different clinical contexts. All chapters were written by renowned specialists in their respected fields and include detailed sample cases and essential take-home messages; the topics that require an in-depth approach are extensively covered, whereas clinical chapters are more essential, focusing on practicality. In light of the highly interdisciplinary nature of wound management, this new, updated edition of Skin Necrosis will be a much-valued tool for wound care practitioners and health care professionals across the fields of surgery, dermatology, internal medicine, and nursing. This is an open access book.
