

1. Record Nr.	UNINA9910915682903321
Autore	IAEA
Titolo	Modifications to Nuclear Power Plants
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2022 ©2022
ISBN	9789201254221 9789201253224
Edizione	[1st ed.]
Descrizione fisica	1 online resource (58 pages)
Collana	IAEA Safety Standards Series No Series ; ; v.SSG-71
Soggetti	Nuclear power plants Nuclear energy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This publication by the International Atomic Energy Agency (IAEA) outlines the specific safety guidelines for modifications to nuclear power plants. It forms part of the IAEA Safety Standards Series, which aims to protect health and minimize danger to life and property by setting comprehensive safety standards. The guide covers various aspects of nuclear safety, including radiation, transport, and waste safety. It provides practical examples and methodologies for implementing these standards, serving as a resource for national regulations, safety reviews, and training purposes. The intended audience includes regulatory bodies, nuclear facility operators, and policymakers involved in nuclear safety.
