Nota di contenuto	Diversity in Cities and Addressing Urban Sustainability -- Designing the institutional framework of Hybrid Special Economic Zones (HEZ) -- Temporary Appropriation as a Catalyst for Diversity in Urban Development -- Assessing the Position of the Neighbourhood-oriented Management -- Approach in the Economic Management of Medium-sized Cities -- 15-minute Cities: A Systems Thinking Analysis of a New Urban Development Framework.
Sommario/riassunto	In an era where global cities emerge as pivotal hubs for economic growth and cultural fusion, this book presents an innovative approach to understanding and leveraging the rich tapestry of diversity in urban environments. This book delves into how cultural diversity acts not just as a social asset but as a key driver of economic prosperity and urban resilience. What sets this book apart is its multidisciplinary perspective, combining insights from urban planning, economics, social sciences, and sustainability studies. It offers a fresh lens through which the dynamics of global cities are viewed, analyzed, and understood,

aligning closely with Sustainable Development Goal 11 – making cities inclusive, safe, resilient, and sustainable. The scope of the book is both broad and deep, covering topics from the economic impact of cultural diversity in urban centers to strategies for balancing cultural heritage with modern urban development. It's a must-read for academics, policy makers, urban planners, and anyone interested in the future of urban living. Key features and benefits: Offers a unique blend of theory and practice, providing actionable insights for harnessing cultural diversity in urban development. Includes case studies and examples from cities around the world, making it relevant to a global audience. Directly aligns with global policy agendas, particularly SDG 11, offering a strategic guide for policymakers and urban developers.
