Sommario/riassunto	This book shows six cases of rural grassroots cadres and masses exploring the implementation of the rural revitalization strategy. These cases show the problems encountered in the work of rural leaders and the ideas to solve contradictions (policy and reality, individual and collective), reveal the importance of organization, governance, and talent building in rural development, and emphasize that promoting rural revitalization must empower the village collective and require the active participation of all sectors of society. This work can be used as a reference book for grassroots cadres, rural revitalization workers, the public, professional researchers, and teachers and students of colleges and universities to deeply understand the grassroots practical exploration and theoretical thinking and research of rural revitalization.
