Soggetti	Industrial management Business logistics Refuse and refuse disposal Industrial Management Supply Chain Management Waste Management/Waste Technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This is an open access book. It gathers the proceedings of the 19th Global Conference on Sustainable Manufacturing, held on December 4-6, 2023, in Buenos Aires, Argentina. With a focus on sustainable manufacturing advances and practices as a driver for growth, the chapters selected for this book report on sustainable production technologies for the mobility, energy and construction sector, and for machines and equipment, covering aspects of digitalization and circular economy. Moreover, they discuss energy-efficient process, waste reuse, and CO2 neutral production, giving a special emphasis to developing sustainable manufacturing in Latin America. This book offers extensive and timely information for both researchers and

professionals in the field of manufacturing and business development.
