Edizione	[1st ed.]
Descrizione fisica	1 online resource (239 pages)
Disciplina	363.1
Soggetti	Accidents - Prevention Accident investigation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"This book leverages the author's expertise in accident investigation to address safety in academic and research institutions, focusing on accident prevention through scientific methods. Drawing on real-world case studies, the book provides practical guidance on hazard identification, risk management, and accident investigation, while emphasizing the need for structured safety systems like Business Continuity Management (BCM) and Safety Management Systems (SMS). Targeted at health and safety professionals, researchers, and faculty, it offers valuable insights into preventing and mitigating accidents in laboratories and fieldwork through data-driven, systematic approaches"--
