

1. Record Nr.	UNINA9910951796603321
Autore	Correia Mauro Monteiro
Titolo	Gallbladder Cancer : A Comprehensive Guide to Management // edited by Mauro Monteiro Correia, Michael A. Choti, Flavio G. Rocha
Pubbl/distr/stampa	Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2024
ISBN	9783031767463 3031767462
Edizione	[1st ed. 2024.]
Descrizione fisica	1 online resource (274 pages)
Altri autori (Persone)	ChotiMichael A RochaFlavio G
Disciplina	616.994
Soggetti	Oncology Interventional radiology Surgery Interventional Radiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Anatomy and embryology of the intra and extrahepatic biliary tract -- Exploring anatomy, macroscopic and microscopic structures and physiological functions of the gallbladder -- Gallbladder cancer epidemiology and risk factors -- Is there a role for prophylactic cholecystectomy? -- Pre-malignant lesions of the gallbladder -- Pathology features of GBC -- Imaging of GBC -- Staging for GBC -- Indication of Reoperation in Incidental Gallbladder Cancer -- Management of incidentally diagnosed GBC at the time of cholecystectomy -- Management of incidental GBC diagnosed after gallbladder surgery -- Surgical results for open, laparoscopic and robotic resections for GBC -- GBC : Surgical results of an oncologic center -- Chemotherapy for GBC -- Role of ctDNA in the management of GBC -- Molecularly targeted therapy for GBC.
Sommario/riassunto	Gallbladder Cancer: A Comprehensive Guide to Management was planned as a thorough, yet objective text about gallbladder cancer, encompassing from epidemiology and pathogenesis to the present cutting edge technology and ongoing research. This work provides a comprehensive review of a worldwide scope disease as a collaboration

of renowned researchers from different continents, including the latest discussions of crucial topics on gallbladder cancer management. The epidemiology content covers epidemiologic data, trends over time, risk factors, incidence and cancer specific mortality rates. Chapters describe the intrinsic molecular mechanisms of oncogenesis associated with the pathogenetic mechanisms, genomics, proteomics and transcriptomics. Regarding prevention, prophylactic measures and preventive use of drugs is presented. Chapters also describe the clinical, radiological, laboratorial aspects of the different forms of gallbladder cancer. In addition, the role of biomarkers for diagnosis, prognosis and follow up is explored. Readers will also find topics such as management through multidisciplinary treatment, surgical controversies, systemic therapy and radiation therapy. The book is a valuable resource to general and cancer surgeons, HPB surgeons, clinical oncologists, gastroenterologists and medical residents.

2. Record Nr.	UNINA9910962889703321
Autore	Greenberg Michael R
Titolo	Environmental impact statement : final draft, pursuant to Montana environmental policy act, section 69-6504 (b) (3) : Montana Department of Highways roadside weed control program

Sommario/riassunto	<p>This book is about a subject that Michael Greenberg has worked on and lived with for almost forty years. He was brought up in the south Bronx at a time when his neighborhood suffered from terrible air and noise pollution, and domestic waste went untreated into the Hudson River. For him, the National Environmental Policy Act (NEPA) was a blessing. It included an ethical position about the environment, and the law required some level of accountability in the form of an environmental impact statement, or EIS. After forty years of thinking about and working with NEPA and th</p>
