

1. Record Nr.	UNINA9910958345603321
Autore	Camp John McK., II, <1946->
Titolo	The archaeology of Athens / / John M. Camp
Pubbl/distr/stampa	New Haven ; ; London, : Yale University Press, c2001
ISBN	1-281-72886-1 9786611728861 0-300-13815-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xii, 340 pages) : illustrations, maps
Disciplina	938/.5
Soggetti	Excavations (Archaeology) - Greece - Athens Historic sites - Greece - Athens Athens (Greece) Antiquities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front matter -- Contents -- Preface -- 1. INTRODUCTION THE PHYSICAL SETTING -- 2. THE PREHISTORIC PERIOD -- 3. EARLY AND ARCHAIC ATHENS -- 4. CLASSICAL ATHENS -- 5. HELLENISTIC ATHENS -- 6. ROMAN ATHENS -- 7. LATE ROMAN ATHENS -- Athens -- Attica -- Border Areas -- Abbreviations -- Illustration Credits -- Index
Sommario/riassunto	The monuments of ancient Athens and Attica give eloquent testimony to the enduring legacy of Greek civilization. In this book, a leading authority on the archaeology of this area presents a survey of the monuments-first chronologically and then site by site-creating the definitive work on the subject. John M. Camp begins with a comprehensive narrative history of the monuments from the earliest times to the sixth century A.D. Drawing on literary and epigraphic evidence, including Plutarch's biographies, Pausanias's guidebook, and thousands of inscriptions, he discusses who built a given structure, when, and why. Camp presents dozens of passages in translation, allowing the reader easy access to the variety and richness of the ancient sources. In effect, this main part of the book provides an engrossing history of ancient Athens as recorded in its archaeological remains. The second section of the book offers in-depth discussions of individual sites in their physical context, including accounts of

excavations in the modern era. Written in a clear and engaging style and lavishly illustrated, Camp's archaeological tour of Athens is certain to appeal not only to scholars and students but also to visitors to the area.

Sommario/riassunto	Histories tend to emphasize conquest by Anglo-Americans as the

driving force behind the development of the American West. In this fresh interpretation, Jay Gitlin argues that the activities of the French are crucial to understanding the phenomenon of westward expansion. The Seven Years War brought an end to the French colonial enterprise in North America, but the French in towns such as New Orleans, St. Louis, and Detroit survived the transition to American rule. French traders from Mid-America such as the Chouteaus and Robidouxs of St. Louis then became agents of change in the West, perfecting a strategy of "middle grounding" by pursuing alliances within Indian and Mexican communities in advance of American settlement and re-investing fur trade profits in land, town sites, banks, and transportation. The Bourgeois Frontier provides the missing French connection between the urban Midwest and western expansion.
