

1. Record Nr.	UNINA9910953444103321
Titolo	Humic acids from raw materials of the Czech Republic // Libuse Madronova, editor
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2011
ISBN	1-61761-035-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (141 p.)
Collana	Environmental science, engineering and technology Chemistry research and applications
Altri autori (Persone)	MadronovaLibuse
Disciplina	631.4/17
Soggetti	Humic acid
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- HUMIC ACIDS FROM RAW MATERIALS OF THE CZECH REPUBLIC -- HUMIC ACIDS FROM RAW MATERIALS OF THE CZECH REPUBLIC -- LIBRARY OF CONGRESS CATALOGING-IN-PUBLICATION DATA -- CONTENTS -- PREFACE -- Chapter 1 PREPARATION AND ELEMENTAL COMPOSITION -- ABSTRACT -- 1. INTRODUCTION -- 2. EXPERIMENTAL -- 2.1. Materials -- 2.2. Preparation -- 2.3. Methods of Basic Analysis -- 2.4. Organic Elemental Analysis -- 3. RESULTS -- 4. CONCLUSION -- REFERENCES -- Chapter 2 FTIR SPECTRA -- ABSTRACT -- 1. INTRODUCTION -- 2. EXPERIMENTAL -- 2.1. Materials -- 2.2. Methods -- 3. RESULTS -- 4. CONCLUSION -- REFERENCES -- Chapter 3 13C NMR SPECTRA IN THE LIQUID AND SOLID STATES -- ABSTRACT -- 1. INTRODUCTION -- 2. EXPERIMENTAL -- 2.1. Materials -- 2.2. Spectroscopy Analyses -- The Liquid State (LS) 13C NMR Spectra -- The Solid State 13C CP/MAS NMR Spectra -- 3. RESULTS -- 4. CONCLUSION -- REFERENCES -- Chapter 4 DETERMINATION OF OH GROUPS BY WET CHEMICAL METHODS -- ABSTRACT -- 1. INTRODUCTION -- 2. EXPERIMENTAL -- 2.1. Materials and Samples -- 2.2. Methods -- Ion Exchange Method -- Acid-base Titration Curves -- Determination of the OH content -- 3. RESULTS -- 4. CONCLUSION -- REFERENCES -- Chapter 5 DETERMINATION OF MOLECULAR WEIGHTS AND CORRELATIONS WITH THE E4/E6 RATIO -- ABSTRACT -- 1. INTRODUCTION -- 2. EXPERIMENTAL -- 2.1 Materials -- 2.2 The Absorbance Determination -- 2.3 Molecular Weight's Determination --

3. RESULTS -- 4. CONCLUSION -- REFERENCES -- Chapter 6
THERMAL ANALYSIS, CORRELATION BETWEEN PHYSICAL AND CHEMICAL
PROPERTIES OF HUMIC ACIDS -- ABSTRACT -- 1. INTRODUCTION -- 2.
EXPERIMENTAL -- 2.1. Materials -- 2.2. Thermal Analysis -- 2.3.
RESULTS -- 4. CONCLUSION -- REFERENCES -- Chapter 7
BIOLOGICAL ACTIVITY DETERMINATION -- ABSTRACT -- 1.
INTRODUCTION -- 2. EXPERIMENTAL -- 2.1. Materials.
2.2. Biological Activity Determination in Higher Plants -- 2.3. Foliar
Applications -- 1) The Effect of HK Foliar Application on the Nutrient
Uptake. Growth and Genesis of Wheat Grown under Hydroponic
Conditions -- 2) The Effect of HK Foliar Application together with Zinc
on its Uptake by Wheat Grown under Hydroponic Conditions -- 3.
RESULTS -- 3.1. Biological Activity Determination -- 3.2. Foliar
Applications -- 1) The Effect of HK Foliar Application on the Nutrient
Uptake. Growth and Genesis of Wheat Grown under Hydroponic
Conditions -- 2) The Effect of HK Foliar Application together with Zinc
on its Uptake by Wheat Grown under Hydroponic Conditions -- 4.
CONCLUSION -- REFERENCES -- Chapter 8 OXIDATION OF COAL-
BASED RAW MATERIALS BY NITRIC ACID -- ABSTRACT -- 1.
INTRODUCTION -- 2. EXPERIMENTAL -- 2.1. Materials -- 2.2.
Preparation -- Working Procedure of Oxidation -- 2.3. Methods of
Analysis -- 3. RESULTS -- 3.1. Basic Characteristics and Composition of
Inorganic Constituent -- 3.1.2. Organic Elemental Analysis -- 3.3. FTIR
Infrared Spectroscopy -- 3.4. Liquid State ¹³C NMR -- 3.5. Molecular
Masses and E4/E6 Parameter -- 3.6. Biological Activity -- 4.
CONCLUSION -- ACKNOWLEDGMENTS -- REFERENCES -- LIST OF
SYMBOLS -- INDEX.

Sommario/riassunto

In the period of more than twenty years, the Research Institute of Inorganic Chemistry in the Czech Republic, together with various other universities, research institutes and commercial organisations, worked on projects concerned with humic substances. This book presents the results of these extensive investigations.
