Sommario/riassunto	For generations the Rio Embudo watershed in northern New Mexico has been the home of Juan Estevan Arellano and his ancestors. From this unique perspective Arellano explores the ways people use water in dry places around the world. Touching on the Middle East, Europe, Mexico, and South America before circling back to New Mexico, Arellano makes a case for preserving the acequia irrigation system and calls for a future that respects the ecological limitations of the land.
