Foreign and defense policy before September 11 -- 5. The war President -- 6. The Iraq nexus -- 7. Bush's style, record, and vision.
Sommario/riassunto	Few presidents in modern times have seen their words and actions subject to such intense critical scrutiny as George W. Bush. His critics label him the 'Pariah President', personally inarticulate and at times politically incoherent; his supporters portray him as gifted and skilled, one of the most decisive, successful and popular leaders of our time. But if 'the person is now the policy' at the White House - and that person happens to be both activist and moralist - what kind of presidency and foreign policy flows from such a leader? How has Bush changed American politics and the role of the United States in the world? Alexander Moens offers the first systematic explanation of Bush's foreign policy by describing the complexities of the man and how his particular personality and style so heavily influence the final policy outcomes. Frank, engaging and insightful, it offers an original and carefully documented account of Bush's personality, his presidential style and his decision-making process, and how these three core ingredients in turn provide the key to understanding Bush's overall strategy and policy. The Foreign Policy of George W. Bush is an ideal reference for contemporary US foreign policy, international

security, and diplomatic relations. With detailed and candid insights into the presidential leadership it will also make fascinating reading for those interested in the future of American politics.
