Edizione	[1st ed.]
Descrizione fisica	1 online resource (xvi, 435 pages) : digital, PDF file(s)
Classificazione	HIS037000
Disciplina	387.5094/0904
Soggetti	Merchant marine - Europe - History - 20th century Shipping - Economic aspects - Europe - History - 20th century Europe Commerce History 20th century
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Ports -- Shipping -- Trading companies and their commodities -- Intermediaries -- Culture -- World War I -- The time of troubles -- War and remaking : 1939-1960s -- Transformation.
Sommario/riassunto	Europe and the Maritime World: A Twentieth-Century History offers a framework for understanding globalization over the past century. Through a detailed analysis of ports, shipping and trading companies whose networks spanned the world, Michael B. Miller shows how a European maritime infrastructure made modern production and consumer societies possible. He argues that the combination of overseas connections and close ties to home ports contributed to globalization. Miller also explains how the ability to manage merchant

shipping's complex logistics was central to the outcome of both world wars. He chronicles transformations in hierarchies, culture, identities and port city space, all of which produced a new and different maritime world by the end of the century.
