 Values, Markets and GNP -- Global Land Use and Land Cover --
 Synthesis -- Source of Error, Limitations and Caveats -- Total Global
 Value of Ecosystem Services -- Discussion -- Notes -- Chapter 8
 Sustainability and Markets: On the Neoclassical Model of Environmental
 Economics (1997) -- Sustainability and Collectivity -- The Scale of the
 Sustainability Objective -- Neoclassical Environmental Economics --
 Markets and the Concept of Sustainability -- Markets and Structural
 Change -- Markets and Instruments -- Markets, Planning and the State
 -- Chapter 9 Crafting the Next Generation of MarketBased
 Environmental Tools (1997) -- Market-Based Policy Instruments --
 Limited Experience -- Mixed Performance -- The Next Generation --
 Chapter 10 Climate Fraud and Carbon Colonialism: The New Trade in
 Greenhouse Gases (2004) -- Introduction -- What is Emissions
 Trading? -- Climate Fraud -- Monitoring the Monitors -- Carbon
 Colonialism -- Might Makes Right.
 The 1992 Rio Earth Summit and Climate Change -- The Role of
 Corporations -- Co-opting NGOs -- The Impact of the World Trade
 Organization on Emissions Trading -- Environmental Justice -- The
 Alternative -- Conclusions -- Notes -- Chapter 11 The Business of
 Sustainable Development (1992) -- Sustainable Development -- The
 Growth Controversy -- The Business Challenge -- "Eco-efficiency" --
 The Challenge of Time -- Shaping the Future -- Chapter 12 The
 "Commons" versus the "Commodity": Alter-globalization, Anti-
 privatization and the Human Right to Water in the Global South (2007)
 -- Prologue -- Introduction: The Triumph of Market Environmentalism?
 -- Neoliberal Reforms and Resource Management: Clarifying the
 Debate -- Debating Neoliberalization: Anti-privatization Campaigns
 and the "Human Right to Water" -- Alter-globalization and the
 Commons -- Conclusions -- Notes -- References -- Part III Explaining
 the Relationship between Globalization and the Environment --
 Introduction -- Chapter 13 Peril or Prosperity? Mapping Worldviews of
 Global Environmental Change (2011) -- Four Environmental Worldviews
 -- Market Liberals -- Institutionalists -- Bioenvironmentalists -- Social
 Greens -- Conclusion -- Chapter 14 Introduction to World
 Development Report, 2003: Sustainable Development in a Dynamic
 Global Economy (2003) -- Achievements and Challenges -- Notes --
 Chapter 15 The Political Ecology of Globalization (2012) -- Which
 Globalization? -- Which Political Ecology? -- Conclusions -- Notes --

References -- Chapter 16 Institutions for the Earth: Promoting International Environmental Protection (1992) -- International Environmental Institutions -- Enhancing the Contractual Environment -- Increasing National Capacity -- Advice to the New Secretary General -- Move from Principles to Rules -- Build National Capacity -- Contemporary Greenhouse-gas Negotiations.

Sovereignty -- Notes -- Part IV Governing Globalization and the Environment -- Introduction -- References -- Chapter 17 Trading Up and Governing Across: Transnational Governance and Environmental Protection (1997) -- The Impact of Economic Interdependence -- The Costs of Compliance -- Exporting Production Standards -- The Limits of Market Pressures -- Chapter 18 The WTO and the Undermining of Global Environmental Governance (2000) -- The Green Critique of the WTO -- The Race to a Polluted Bottom -- Commodifying the Commons -- Conclusion -- Chapter 19 Private Environmental Governance and International Relations: Exploring the Links (2003) -- Supplanting, or Complementing, State Authority? -- Chapter 20 Managing Multinationals: The Governance of Investment for the Environment (2001) -- Introduction: The Regulation of TNCs and the Environment -- Power without Responsibility? The Limits of Existing Regulation -- Civil Regulation: From Confrontation to Collaboration -- Litigation against TNCs -- Conclusion -- Notes -- References -- Chapter 21 Reforming Global Environmental Governance: The Case for a United Nations Environment Organisation (UNEO) (2012) -- World Politics in the Anthropocene -- Forty Years of Debate on a World Environment Organization -- Three Models of a World Environment Organization -- Rio Plus 2012: The Case for Getting Serious about a United Nations Environment Organization -- Summing Up -- Part V Can Globalization be Greened? -- Introduction -- References -- Chapter 22 Whose Common Future: Reclaiming the Commons (1994) -- I. The Commons -- II. Development as Enclosure -- III. The Encompassing Web -- IV. Reclaiming the Commons -- V. A Concluding Remark -- Notes -- Chapter 23 Resisting 'Globalisation-from-above' Through 'Globalisation-from-below' (1997) -- I. A Normative Assessment of Globalisation.

II. The New Politics of Resistance in an Era of Globalisation -- Notes -- Chapter 24 Picking the Wrong Fight: Why Attacks on the World Trade Organization Pose the Real Threat to National Environmental and Public Health Protection (2005) -- Why the Concerns? (or What's New about the WTO?) -- Environmental and Public Health Complaints in Context -- Conclusions -- Chapter 25 What Every Environmentalist Needs to Know About Capitalism (2010) -- Characteristics of Capitalism in Conflict with the Environment -- Proposals for the Ecological Reformation of Capitalism -- What Can Be Done Now? -- Another Economic System Is Not Just Possible - It's Essential -- Notes -- Chapter 26 Pathways of Human Development and Carbon Emissions Embodied in Trade (2012) -- References -- Chapter 27 Introduction to Towards a Green Economy: Pathways to Sustainable Development and Poverty Eradication (2012) -- Setting the Stage for a Green Economy Transition -- Notes -- Chapter 28 Critique of the Green Economy: Toward Social and Environmental Equity (2012) -- Blueprint For an Economy of Moderation -- Social Commons as an Economic Factor -- Index -- EULA.

Sommario/riassunto

The Globalization and Environment Reader features a collection of classic and cutting-edge readings that explore whether and how globalization can be made compatible with sustainable development. Offers a comprehensive collection of nearly 30 classic and cutting-edge readings spanning a broad range of perspectives within this

increasingly important field Addresses the question of whether economic globalization is the prime cause of the destruction of the global environment - or if some forms of globalization could help to address global environmental problems Features carefully edited extracts selected both for their importance and their accessibility Covers a variety of topics such as the 'marketization' of nature, debates about managing and governing the relationship between globalization and the environment, and discussions about whether or not globalization should be 'greened' Systematically captures the breadth and diversity of the field without assuming prior knowledge Offers a timely and necessary insight into the future of our fragile planet in the 21st century
