1. Record Nr. UNINA9910953908703321

Titolo	Meteorites and asteroids : classification, geology, and exploration / / Akilina Dementieva and Danilo Ostrogorsky, editors
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2012
ISBN	1-61942-119-4
Edizione	[1st ed.]
Descrizione fisica	1 online resource (186 p.)
Collana	Space science, exploration and policies series
Altri autori (Persone)	DementievaAkilina OstrogorskyDanilo
Disciplina	523.5/1
Soggetti	Meteorites Asteroids
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	""METEORITES AND ASTEROIDS ""; ""METEORITES AND ASTEROIDS ""; ""CONTENTS ""; ""PREFACE ""; ""METEORITES AND THEIR ASTEROIDAL PARENT BODIES""; ""ABSTRACT ""; ""INTRODUCTION ""; ""Meteorite Diversity and Classification ""; ""Classification of Chondrites ""; ""Classification of Nonchondritic Meteorites ""; ""Measuring and Interpreting Asteroid Spectra ""; ""Visible Analysis of Spectra ""; ""Visible/Near-Infrared Mineralogical Analysis of Spectra ""; ""Effects of Surface Properties on Asteroid Spectra""; ""METEORITES AND POSSIBLE PARENT BODIES ""; ""Ordinary Chondrites and the S-Type Asteroids "" ""HEDs and Asteroid 4-Vesta """"CM Chondrites and the C-Type Asteroids ""; ""Iron Meteorites and M-Type Asteroids""; ""Aubrites and E-Types""; ""Ureilites and F-Types ""; ""CONCLUSION ""; ""ACKNOWLEDGMENTS ""; ""REFERENCES ""; ""EXTRATERRESTRIAL MATERIAL AND CHANGES OF THE EARTHa€?S CLIMATE ""; ""ABSTRACT ""; ""INTRODUCTION ""; ""THE INFLUENCE OF CONTINUOUS FLUX OF EXTRATERRESTRIAL SUBSTANCE ON ATMOSPHERIC PROCESSES ""; ""POSSIBLE INFLUENCE OF ASTEROID IMPACT ON ATMOSPHERIC PROCESSES ""; ""The Hallstatt Cycle and Taurid Stream "" ""Possible Climatic Consequences of Impact of a Stony Asteroid with a Diameter of 250 M """"CONCLUSION ""; ""REFERENCES ""; ""THE DIVERSION AND EXPLOITATION OF ICE-RICH NEOS USING THE SOLAR COLLECTOR ""; ""ABSTRACT""; ""INTRODUCTION: THE NEO THREAT,

Sommario/riassunto

In this book, the authors present current research in the study of the classification, geology and exploration of asteroids and meteorites. Topics discussed include meteorites and their asteroidal parent bodies; the diversion and exploitation of ice-rich NEOs using the solar collector; radar characteristics of asteroid 33342 (1998 WT24); asteroid dimensions and the truncated pareto distribution; Hilda asteroids in the Jupiter neighborhood; and asteroid Apophis and 1950 DA.
