A foundation of influence: the Oxford Pastorate and elite recruitment in early twentieth-century Anglican evangelicalism
The church of the laity; 'The church itself is God's clergy': the principles and practices of the Brethren; Changing Baptist concepts of royal priesthood: John Smyth and Edgar Young Mullins; The Charismatic Movement: the laicizing of Christianity?; Index

Sommario/riassunto

This comprehensive investigation into the involvement of ordinary Christians in Church activities and in anti-clerical dissent, explores a phenomenon stretching from Britain and Germany to the Americas and beyond. It considers how evangelicalism, as an anti-establishmentarian and profoundly individualistic movement, has allowed the traditionally powerless to become enterprising, vocal, and influential in the religious arena and in other areas of politics and culture.
