

1. Record Nr.	UNINA9910954117403321
Titolo	The freshwater imperative : a research agenda // edited by Robert J. Naiman ... [et al.]
Pubbl/distr/stampa	Washington, D.C., : Island Press, c1995
ISBN	1-55963-407-3 1-61091-071-0 1-4175-3969-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (185 p.)
Altri autori (Persone)	NaimanRobert J
Disciplina	574.5/2632/072
Soggetti	Limnology - Research Ecosystem management - Research Water quality management - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 135-149) and index.
Nota di contenuto	""About Island Press""; ""Title Page""; ""Copyright Page""; ""Island Press Board of Directors 1995""; ""Contents""; ""Figures, Tables, and Boxes""; ""Foreword""; ""Preface""; ""Executive Summary""; ""Fresh Water and the Freshwater Imperative""; ""Status of Fresh Waters and Challenges Ahead""; ""Directions for Freshwater Research""; ""Linking Research, Management, and Policy""; ""Implementation Requirements""; ""Appendix 1. FWI Research Agenda Participants""; ""Appendix 2. Books and Proceedings Reviewed by the FWI Steering Committee""; ""Literature Cited""; ""Glossary of Terms and Acronyms"" ""About the Authors""""Index""
Sommario/riassunto	This volume summarizes the two-year effort of a working group of leading aquatic scientists sponsored by NSF, EPA, NASA, TVA, and NOAA to identify research opportunities and frontiers in freshwater sciences for this decade and beyond. The research agenda outlined focuses on issues of water availability, aquatic ecosystem integrity, and human health and safety. It is a consensus document that has been endorsed by all of the major professional organizations involved with freshwater issues.
