

1. Record Nr.	UNINA9910954520703321
Titolo	Encyclopedia of insects // editors, Vincent H. Resh, Ring T. Carde
Pubbl/distr/stampa	Burlington, MA, : Academic Press, 2009
ISBN	9786612168550 9781282168558 128216855X 9781849728065 1849728062 9780080920900 008092090X
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (1169 p.)
Altri autori (Persone)	CardeRing T ReshVincent H
Disciplina	595.703
Soggetti	Insects Entomology Insecta Encyclopedia
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Anatomy -- Physiology -- Behavior -- Evolution -- Reproduction -- Development and metamorphosis -- Major groups and notable forms -- Interactions with other organisms -- Interactions with humans -- Habitats -- Ecology -- History and methodology.
Sommario/riassunto	Covering all aspects of insect anatomy, physiology, evolution, behavior, reproduction, ecology, and disease, as well as issues of exploitation, conservation, and management, this book sets the standard in entomology. The second edition of this reference will continue the tradition by providing the most comprehensive, useful, and up-to-date resource for professionals. Expanded sections in forensic entomology, biotechnology and Drosophila, reflect the full update of over 300 topics. Articles contributed by over 260 high profile and internationally recognized entomologists provide definitive facts regarding all insects

from ants, beetles, and butterflies to zoraptera, and zygentoma.

2. Record Nr.	UNINA9911053096803321
Titolo	Adipose Tissue Inflammation 2022
Pubbl/distr/stampa	MDPI - Multidisciplinary Digital Publishing Institute, 2023
Descrizione fisica	1 online resource (168 p.)
Soggetti	Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This reprint presents recent advances in understanding the molecular processes that take place in adipose tissue inflammation in the context of obesity. It discusses the impact of adipose tissue inflammation on systemic metabolic alterations associated with excess adiposity, as well as its repercussion in several pathological conditions that may help to understand obesity-associated metabolic derangements.
