Soggetti	Administrative agencies - Information technology - United States - Finance Information technology - United States - Planning Information technology - Cost effectiveness - Evaluation Information technology - Government policy - United States Capital investments - United States - Management Capital investments - United States - Evaluation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	The federal government spends billions of dollars on information technology (IT) projects each year. Consequently, it is important that projects be managed effectively to ensure that public resources are wisely invested. Having accurate and transparent project cost and schedule information is also essential to effective oversight.
