Introduction to Catholic Theology is an accessible but in-depth examination of the ways in which Catholic theology is rooted in and informs Catholic practice. Weaves together discussion of the Bible, historical texts, reflections by important theologians, and contemporary debates for a nuanced look at belief and practice within the Catholic faith. Provides an overview of all major theological areas, including scriptural, historical, philosophical, systematic, liturgical, and moral theology. Appropriate for students at all levels, assuming no prior knowledge yet providing enough insight and substance to interest those more familiar with the topic. Written in a dynamic, engaging style by two professors with more than 50 years of classroom experience between them.
