Sommario/riassunto	First published at the height of the Second World War, ""England's

Hour"" is Vera Brittain's account of the grim, desperate but often inspiring years, 1939-41. As ""Testament of Youth"" movingly showed, the First World War was to haunt Vera Brittain and when war was again declared on Germany in 1939, she feared the worst. But although during these years much was to be endured by the British, much was also to be gained. This spirit of determination is vividly captured by Vera Brittain as she describes her own personal experiences set against the dramatic events of the early war years, events li

### Sommario/riassunto

This volume of essays draws together research on different types of collective actions: group actions, representative actions, test case procedures, derivative actions and class actions. The main focus is on how these actions can enhance access to justice and on how to balance the interests of private actors in protecting their rights with the interests of society as a whole. Rather than focusing on collective actions only as a procedural device per se, the contributors to this book also examine how these mechanisms relate to their broader social context. Bringing together a broad range of scholarship from the areas of competition, consumer, environmental, company and securities law, the book includes contributions from Asian, European and North American scholars and therefore expands the scope of the traditional European and/or American debate.
