Leisure across legal and illegal -- Part VI. Leisure across individual and collective spheres, social stratification and public policies.
Sommario/riassunto	In current academic debates, leisure is increasingly defined as a discursive construction originating both from the specific meanings created by individuals, and the institutionalizing processes that legitimate certain experiences and their spatial-temporal conditions as ""leisure"". As a result of social construction and the different social conditions existing at a certain historical moment in different societies, the borders among the various aspects of leisure are becoming more and more blu...

Sommario/riassunto	Le politiche pubbliche in Italia hanno una gestazione difficile ma una messa in opera difficilissima. E normale che a seguito di una politica pubblica si produca una quantita di effetti collaterali non previsti. Cosi come e altrettanto normale che una politica pubblica determini un impatto che risulta gradito ex post ma che non e identificabile con quello programmato. Tanto che molte politiche fanno pensare piu a una scommessa che a un progetto. Ossia sono sempre esposte a un universo di fattori e circostanze che ne puo distruggere o cambiare i presupposti teorici al di fuori di qualunque effettiva e misurabile capacita di governo. Cio e la spia di una fragilita strutturale di un regime democratico e delle capacita di governo che sa esprimere: la sua difficolta nell'alimentare le proprie politiche con dosi e strumenti di legittimazione sufficienti a conseguire l'efficacia auspicata. E un tema classico della scienza politica che viene rivisitato alla luce delle diverse tipologie di legittimazione empiricamente ipotizzabili e della capacita dello Stato contemporaneo di produrre regolazione sociale.

Recommended Actions to Improve Compliance with the Basel Core Principles and the Effectiveness of Regulatory and Supervisory Frameworks; B. Authorities' Response to the Assessment
Sommario/riassunto	This paper discusses key findings of the Detailed Assessment of Compliance on the Basel Core Principles for Effective Banking Supervision in South Africa. The South African banking system is highly concentrated with more than 90 percent of banking assets being controlled by the five largest banks. A suitable legal framework for banking supervision is in place to provide each responsible authority with the necessary legal powers to authorize banks, conduct ongoing supervision, address compliance with laws, and undertake timely corrective actions to address safety and soundness concerns. The responsibilities and objectives of each of the authorities involved in banking supervision are clearly defined in legislation and publicly disclosed.
